Re 19 July 1962 Memo

25X9A5

[REDACTED]

25X1A9a

I got mildly unhappy about this paper, because if read literally it will require information on DD/R projects (which are after all "covert and clandestine") to be coordinated with the DD/P. I called [REDACTED] about this and he took it up specifically with [REDACTED]. The latter said that there was no intention herein to include purely DD/R projects. He said that so far as we were concerned we could substitute "DD/R" wherever this paper now reads "DD/P". On the other hand, information on projects which are part DD/R and part DD/P (such as [REDACTED]) should be coordinated with the DD/P.

Ernie said he would be willing to crank off another version of this memorandum to be applicable to DD/R projects if we wanted it. I said in view of [REDACTED] assurances, I did not think we would need a piece of paper, but I would check with you.

I guess not  
since I don't want  
to tie my own  
hands on DDR  
projects
